

PAHCOM National Advisory Board

Kimberly D. Kruger, CMM

“My experience in the medical field began after graduating from college in 1978. I was young and ambitious and, like many of you, learned first hand the importance of hard work and dedication in successfully managing a medical practice. In November 1981 I was given the opportunity to become the office manager. During the next several years we experienced tremendous growth. Through all of this I felt myself developing with the practice; however, professionally, there was a void.

“In July 1988, I received a complimentary newsletter introducing me to PAHCOM. The listed benefits of membership included expanding your education base, improving your problem-solving capability, and identifying yourself as a professional. *Yes*, this was what I was looking for to guide me to a higher level of medical office management! Now, 20 years later, I am still active with PAHCOM. The value of networking among my peers and attending the annual conferences represents some of the most worthwhile experiences of my life. The passion I hold for PAHCOM began in 1988 and grows stronger each year!”
