

PAHCOM National Advisory Board

Teri Arseneau, CMM

I was introduced to PAHCOM 20 years ago when I heard, ‘They’ve got a good newsletter. We should join.’ There was no mention of going to conferences or networking opportunities – just the newsletter! Since then, however, I’ve had the privilege of attending 16 conferences, serving on the executive board with many of our outstanding leaders, and meeting experts in medical office management who never hesitate to answer my questions and share their experiences and knowledge with me.

As we look forward to growing and further developing this organization, I am encouraged by the high levels of professionalism, education, and networking afforded to—and by—PAHCOM members. I strongly urge you to share this message with your colleagues: *PAHCOM Shares Knowledge.*”
